

Dear New Kindergarten Families,

We are incredibly excited you will be coming to Wolford Elementary and joining our family! It is sure to be a year full of fun and adventure!

You will be hearing lots of great stories and learning about fiction and non-fiction books. You will also get to choose your own books to bring home each night. We have a poem every week and you will be learning how to read!

We will be writing together every day and you will have your very own writing journal. We will learn how to use letters and sounds to make words, sentences and stories.

Math in kindergarten is hands on and interactive! Children will explore math concepts by using manipulatives and playing games. We will be learning how to count, read and write numbers to 100, solve word problems, sort objects by attributes, name two and three dimensional shapes, add and subtract and much, much more!

In social studies and science we will have a variety of lessons on topics, such as: our community, basic needs, family traditions and customs, living and non-living things, plants and animals.

We are thrilled to meet you and cannot wait for another FANTASTIC year in kindergarten!

Love,

The Kindergarten Teachers
